Description			
Explanation: It doesn't matter whether you pronounce uWeb with a "u" or a "µ", in both cases the preceding an should be an "a". This is due to the fact both options sôund like they start with a consonant("µ" is pronounced as Micro or Mu, so an M, "u" is pronounced as yu, so a Y).			
Occurrence: = Uweb base = This is a uWeb base project that provides the basic needed files and layout to build <u>an</u> uWeb project
