

µWeb - Bug #411

Creating a record with a given primary key fails

2011-10-01 15:29 - Elmer de Looff

Status:	Closed	Start date:	2011-10-01
Priority:	Normal	Due date:	
Assignee:	Elmer de Looff	% Done:	100%
Category:	Model	Estimated time:	0.00 hour
Target version:		Spent time:	1.00 hour
Description When the Save method is called for a newly created Record, this fails if the Primary Key field is already provided, because it tries to update an existing record. Checking the returned cursor's affected rows, and inserting the record on a value of 0 should work.			

Associated revisions

Revision 2984:8fda6cc1931f - 2011-10-01 15:30 - Elmer de Looff

Fixed the issue where it's impossible to create a new Record with a known primary key. This resolves #411.

Revision 100:260c1471ff6f - 2011-10-01 15:30 - Elmer de Looff

Fixed the issue where it's impossible to create a new Record with a known primary key. This resolves #411.
