**Description**

in ext_lib/underdark/libs/sqltalk/mysql/cursor.py

```
    if totalcount and limit is not None: # and limit == len(result):
      result.affected = self._Execute('SELECT FOUND_ROWS()')[0][0]
```

Should be:

```
    if totalcount and limit is not None:
      result.affected = self._Execute('SELECT FOUND_ROWS()')[0][0]
```
